

A story of family, passion, and creativity

With over 30 years of experience behind us, our passion for beauty, natural materials, and small details has enabled us to design collections that are extensive and timeless, making them available in over 50 countries worldwide.

At Andrea House, we not only design products, we also create bonds. We are a family company, consisting of different generations with complementary outlooks. Our mission is to transform spaces into homes that are full of personality, authenticity, and soul.

Our new collection is a reflection of our values: authenticity, closeness, and creativity. Each item is designed in Barcelona, with the care and dedication that sets us apart, to inspire you to create unique spaces that reflect who you are and what you love.

The beauty of authenticity

In a world where the ephemeral often eclipses the essential, the 2025 Andrea House collection emerges as a tribute to authenticity and craftsmanship. Designed to capture the essence of timelessness, each item combines discrete elegance with warmth, turning spaces into experiences.

Our selection is inspired by the softness of organic shapes, the comfort of natural materials, and the sophistication of the prepared finishes. It is a collection that invites you to discover beauty in the details, to feel serenity in the textures, and to connect to the essential through designs that tell a story.

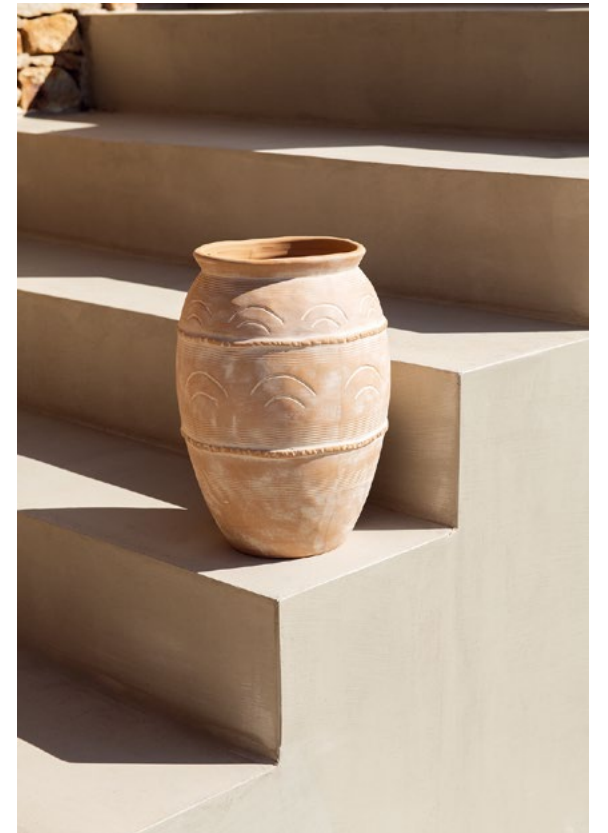

The 2025 collection is not just a selection of products, it is a celebration of conscious luxury and design intended to inspire. Because authentic beauty does not seek to impose itself, but to resonate.

Noble materials such as marble, ceramics, and glass are combined with natural fabrics and polished finishes in the 2025 collection.

Decorative elements take inspiration from fluid, rounded shapes, creating items that transmit serenity and well-being.

The essence of ceramics

Ceramics capture the beauty of craftsmanship, with designs that evoke authenticity. Natural textures, neutral tones, and unique details make each creation a reflection of the connection between nature and contemporary design; creating pieces that add warmth to any space.

**Retro designs that create
nostalgia and turn the bathroom
into a haven of well-being**

Materials such as engraved glass
and marble are combined with
brushed metals to create an
atmosphere of sophistication
and elegance. The new bathroom
collection redefines affordable
luxury, where every detail counts.

Materials that inspire warmth

Natural materials such as wood, stone, and marble bring natural warmth to the space. These materials are combined to create a cozy, sophisticated setting, where the beauty of what is essential is reflected in every detail.

Well-being and comfort in the bathroom

In 2025, well-being takes center stage in the bathroom. The collection focuses on restoration and comfort, offering products with rounded shapes that have a comforting feel. Each piece has been designed to transform the bathroom into a haven of softness and calm, where care and relaxation are essential.

**A reflection of style
and functionality**

The kitchen and the dining table become spaces where beauty and practicality converge. With natural materials and carefully-considered details, each piece has been designed to bring warmth and elegance, creating settings that are perfect for sharing special moments.

Rural, artisan inspiration

The 2025 collection is inspired by slow living and the fusion of vintage and cottagecore elements. With natural materials such as wood and ceramics, each item has been created with artisan finishes that elevate the everyday. Stripes and rustic details add a touch of nostalgia, transforming the kitchen and dining table into cozy spaces, full of character and warmth.

Stainless steel and pakka wood Santoku knife set

The Santoku knife is an essential item for every kitchen. This is a Japanese knife made with high-quality stainless steel and designed to bring perfection at cutting meat, fish, or vegetables. Ideal for chopping, dicing, brunoise cuts, julienne cuts, and more. The alveolated shape of the blade prevents small pieces of food from sticking to it and the ergonomic handle offers unrivalled comfort.
