

ANDREA

Collection 2026

## A story of family, passion, and creativity

With over 30 years of experience behind us, our passion for beauty, natural materials, and small details has enabled us to design collections that are extensive and timeless, making them available in over 50 countries worldwide.

At Andrea House, we not only design products, we also create bonds. We are a family company, consisting of different generations with complementary outlooks. Our mission is to transform spaces into homes that are full of personality, authenticity, and soul.

Our new collection is a reflection of our values: authenticity, closeness, and creativity. Each item is designed in Barcelona, with the care and dedication that sets us apart, to inspire you to create unique spaces that reflect who you are and what you love.

# The value of the essential

Once again, we remain true to our values: the essential, the authentic, and the handcrafted.

We return with a collection that is in harmony with what Andrea House represents, while also responding to a shared need: to slow down. That's why the new collection is designed to create spaces that invite you to **slow down and enhance your well-being**, blending the serenity of warm minimalism with the beauty of artisanal imperfection.

The **New 2026 Collection** unites aesthetics and purpose: a space where form and function merge, where every volume invites rest, where objects tell stories, and where living feels closer to breathing.

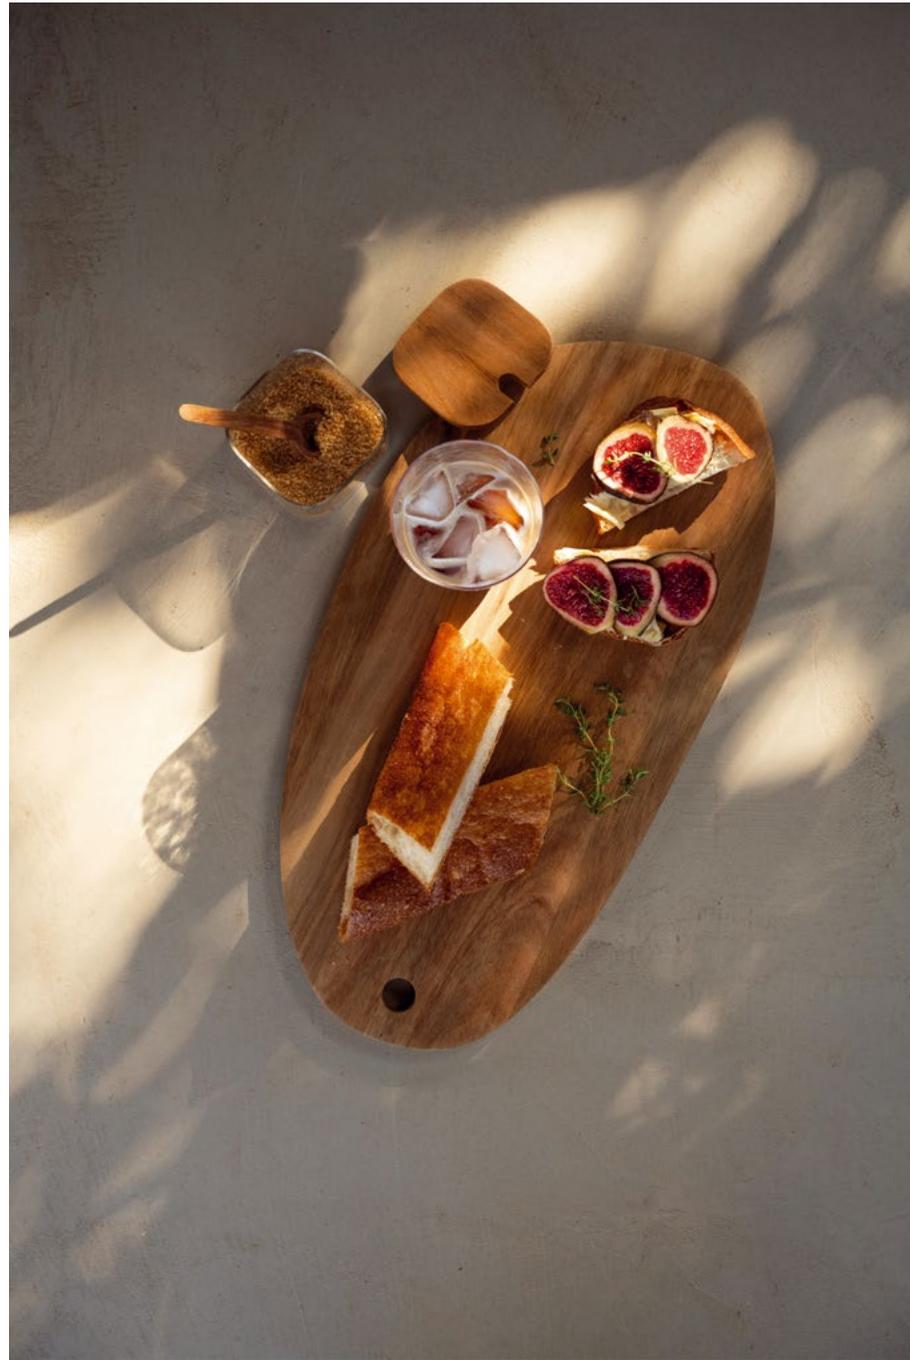

The decorative accessories of 2026 are inspired by **recovered imperfection**: fluid silhouettes and genuine textures that reveal craftsmanship. Their organic character creates a natural harmony that invites you to pause, observe and enjoy the present.

Organic textures, earthy tones, natural shapes and softened edges come together to showcase the connection between materials, nature, and a more **conscious contemporary design**.

Bathrooms that inspire you to slow down and relax, combining smooth surfaces with soft textures. Rounded shapes and a sculptural approach bring visual calm, while noble materials such as **marble** and **stone** reinforce a sense of stability and serenity.

Each piece blends function and aesthetics to transform the bathroom into a serene and mindful **everyday retreat**.

The kitchen is transformed into a space where aesthetics and functionality coexist naturally. Honest materials such as ceramics, wood and stone are combined to create welcoming environments that promote well-being and elevate everyday rituals.

## Wall art

The wall becomes a living element within the space. Abstract designs, reliefs and authentic materials bring depth and visual balance. Pieces that do not merely decorate but add soul and character to the environment.

Glow travertine and linen lamp

### Light that makes a home

Lamps made from natural materials such as travertine and rattan add texture, warmth and character to any space. Paired with linen lampshades, they soften the light and wrap each room in a cosy, serene atmosphere. Pieces that provide warmth, visual comfort and a timeless touch to every corner of the home.

## Kitchen & tableware

The kitchen as a stage for daily rituals. Honest materials like ceramics, wood, and stone come together to create welcoming spaces where aesthetics and functionality coexist naturally. Spaces that celebrate sharing, warmth, and unhurried enjoyment.

Stainless steel and pakka wood Santoku knife set

The Santoku knife is an essential item for every kitchen. This is a Japanese knife made with high-quality stainless steel and designed to bring perfection at cutting meat, fish, or vegetables. Ideal for chopping, dicing, brunoise cuts, julienne cuts, and more. The alveolated shape of the blade prevents small pieces of food from sticking to it and the ergonomic handle offers unrivalled comfort.
