

Yamazaki

Home, simplified.

Our Philosophy

Homes are constantly evolving, but the basis of home design has remained unchanged for generations. Household items can be unimaginative and uninspired, but they don't have to be. With passion and determination, we want to develop the industry with a new and higher standard for product design.

If home is what you make of it, then make it tidy. Make it beautiful. Make it Yamazaki.

Home, simplified.

2025SS Living Room

Two-level storage wagon with adjustable shelving

This wagon with a wooden top provides two levels of storage and has a closed side panel for discreet organization. Casters allow for easy mobility, and the middle shelf can be adjusted to 6 different heights to suit various needs.
